Horsford's Acid Phosphate Pleasant to the Taste.
Dr. A. L. Hall, Fair Haven, N. Y., says: "I have prescribed it with marked benefit in indigestion and urinary troubles." 1414dw

An ounce of prevention is better, they say, than a pound of the best sort of cure. Let us all keep our teeth and our gums from decaying.

And our mouth and our breath fresh and pure. For a bottle of SOZODONT's all we require. To speedily realize all we desire. 1414w

Rheumatism, disordered blood, general debility, and many chronic diseases pronounced incurable, are often cured by Brown's Iron Bitters. 1414w

Gray hairs often cause annoyance, which Parker's Hair Balm prevents by restoring the youthful color. 1414dw

Mothers Should Know It.
Fretful babies cannot help disturbing everybody, and mothers should know how soothing Parker's Ginger Tonic is. It stops baby's pains, makes them healthy, relieves their own anxiety and is safe to use. 1414dw

Heartily Recommended.
Don't consider a good thing because you have been deceived by worthless nostrums. Parker's Ginger Tonic has cured many in this section of nervous disorders, and we recommend it heartily to most sufferers. 1414dw

Wistar's Balsam of Wild Cherry cures coughs, colds, bronchitis, whooping cough, croup, influenza, consumption, and all diseases of the throat, lungs and chest. 50 cents and \$1 a bottle. 1414dw

Peruvian Syrup cures dyspepsia, general debility, liver complaint, marked humor, chronic diarrhoea, nervous affections, female complaints, and all diseases originating in a bad state of the blood. 1414dw

A Delightful Novelty.
Ladies prefer Florentine Cologne because they find this lasting combination of exquisite perfumes a delightful novelty. 1414dw

No More Dyspepsia or Indigestion.
Dr. Henley's celebrated I X L Bitters are the best bitters in use. They never fail to give relief. Read physicians' certificates on the back of bottle. Sold everywhere. 1414dw

The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

25 Dearborn Ave., Chicago, Nov. 7.
I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. MACX.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

The oat crop of the Puget Sound country aggregates 65,000 tons this year the bulk of which will go to the San Francisco market.

The San Francisco police are waging an active war on Chinese lotteries; yet tickets are almost sold openly, so that even a stranger can get them.

Farm property is selling near Seattle rapidly. Three White river valley farms were sold during the past week, aggregating 500 acres, for which was paid \$42,000. For another farm, consisting of 240 acres, \$37,000 was paid. They will be put in hops.

Yellowstone Journal: A heroic deed of the knights of olden times, was that noble act of two hunters who walked and carried a woman, who had broken her leg, 80 miles, and stopping but twice on the road to rest, until she was brought to a place where a surgeon could attend her.

The scarlet fever is very prevalent in Puyallup valley, Washington Territory. A correspondent reports 28 cases in Sumner precinct, and as many in Puyallup. Schools have been closed in consequence of this disease, and uneasiness and distress are quite general.

Redding will obtain the long-coveted, prize of the county seat of Shasta, Cal. This question, which divided Shasta into hostile camps for several years, was submitted to the voters at the late election, and the ancient capital of the county built upon the mountain side, must give place to the city of the plain.

Mr. Ranger, north of town, has just sold his French prunes. From 60 trees, five years old, he sold \$215 worth, after keeping enough for himself, besides letting his neighbors have a great many. This is a sample of what French prunes will do in this county. This is an average of \$430 per acre, and for five-year-old trees we know of nothing to equal it. —*Santa Rosa Democrat.*

CURIOSITIES OF DIVORCE.

A tendency to render divorce easy has marked the legislation of the United States from the beginning. Adultery, the prime and everywhere all sufficient ground for divorce, has been more and more leniently treated every half century or so. Allusion has been made at various times in a general way to the diversity of divorce laws in the different States and Territories of the United States. The New York Herald has looked up the matter and finds in Alabama, for example, not only does adultery committed after marriage afford ground for divorce, but adultery or immorality committed before marriage can, when discovered and proved after marriage, vitiate and dissolve the marriage. In Georgia not only insanity but mere mental incapacity is a legal ground for divorce. In Kentucky certain forms of disease afford legal cause for divorce for more "causes" than any other State in the Union or country in the world. A man and wife can obtain divorce from each other on sixteen different "causes" in Kentucky.

In Maine the saying of the wags holds good, that "though it is hard to get a drink, it is easy to get a divorce." The law there reads: "Divorce may be decreed when the Judge deems it reasonable and proper, conducive to domestic harmony and consistent with the welfare of society." In Illinois also large discretionary divorcing powers are granted to the Judges, in addition to the seven legal causes allowed for divorce. In Delaware adultery itself does not necessitate the granting of a divorce. It depends upon the party committing the crime. If the wife sins then the husband can legally demand an absolute divorce; but if the husband is the offender then the wife is only legally entitled to a partial divorce or a separation. This may at first glance seem unfair. Yet it is based upon one sound argument and conceded fact. The sin of the husband and father cannot affect the status of the children of a family, but the sin of the wife and mother can and does. In Nevada a failure or neglect upon the part of the head of the family to provide the "necessaries" of life for said family constitutes a legal ground for divorce. "Lunacy at the time of marriage" is specified in the laws of Nevada as vitiating. If "love is lunacy," as some philosophers hold, how can any marriage be legal? Besides the momentous question arises, under the laws of Nevada, are "new bonnets counted under the head of 'necessaries'?"

North Carolina, theoretically at least, must be "a State of easy divorce" any just cause, at the discretion of the Judge, is allowed to dissolve the marriage tie. Rhode Island allows "gross misbehavior or wickedness in either party to constitute a ground for divorce."

In Connecticut the famous—or, as some hold, the infamous—"omnibus clause" became a part of the code. This "omnibus clause" provides that any "such mischief or misbehavior as permanently destroys happiness and defeats the purposes of marriage" shall constitute a legal ground for divorce. Such a provision as this would be conveniently sensible if it could only be settled beyond a peradventure what such mischief or misbehavior was in each particular case. In Tennessee an attempt against the life of one party was held a full and sufficient legal ground. But in a recent case in New York city, where the wife attempted one night to strangle her husband in his sleep, the husband was advised that he had no legal grounds for a divorce, "adultery being more matrimonially available" than murder. In Virginia if a woman is discovered after marriage to have borne a bad character deservedly before marriage, without her husband becoming aware of that fact till after marriage, then the husband becomes legally entitled to a divorce. In this case the man is held as having been married by the woman under the false pretense of a good character. And if

either husband or wife has committed a crime before marriage, and said commission of crime is not discovered by the other party till after marriage, then the innocent party is held to be entitled to a divorce from the guilty party.

EDITORIAL NOTES.

Rev. George O. Barnes, the mountain evangelist of Kentucky, is holding revival meetings in Connecticut. He says the chief purpose of his Northern mission is to overthrow the gloomy gospel which prevails in the North, and which, he says, is the devil's gospel, invented by the prince of liars, and carried out by men who wear black clothes, a white necktie, carry a Bible under their arm, and preach as though they were a whole theological seminary.

The cost of treating free gold ores in twenty-stamp mills on the Pacific coast during the year 1887 was \$20 per ton. In 1878 it was reduced to \$6 per ton, and in 1879 to \$4 per ton. In some districts the cost now ranges from \$1.25 to \$1.50 per ton only, which shows remarkable progress in the right direction.

Some one has figured that the expense of a Congressional session is \$23 per minute, while a caucus can be run for two hours with three tallow candles and some one to second the motion.

There is a report in San Francisco to the effect that Claus Spreckles is negotiating for the purchase of the Alta.

It is noticed that California's Congressional delegation is built of very poor timber.

WESTERN TELEGRAMS.

The Inspired Murderer.

LOS ANGELES, Nov. 17. Josiah V. Smith, the man who was inspired to kill his fourteen-year-old son, was arraigned before the Superior Court yesterday. The Clerk read the complaint to him, and when he was asked what plea he desired to make he replied that the paper was all right; that the Lord had inspired him to commit the deed, and that was all he had to say. Judge Hines then ordered the Clerk to enter the plea of not guilty, and appointed counsel to represent Smith in the trial, which has not yet been set. The murderer seemed to be totally indifferent, both as to the deed and his possible fate.

Death of Philosopher Pickett.

MARIPOSA, Nov. 17. Philosopher Pickett died at the Galison Hotel in this town last night, after an illness of two weeks.

The Boys Have a Jolly Time.

OPEDIKE, Ala., Nov. 18. A serious riot occurred here last night in which Jim Roberts, Charley Dix and Charley Gregg were wounded. Pistols and shot-guns were used. The row lasted all night and the destruction of show-windows and lamps was general. It seems to have grown out of general dislike for the city government. About 1,000 shots were fired.

TO-DAY'S NEWS

EASTERN DISPATCHES.

An Electrical Storm.

CHICAGO, Nov. 18. In an interview with the night manager of the Western Union Telegraph Company at 1 o'clock, he stated that the electrical storm throughout the country still continued, and that the regular business of the company was carried on under great difficulties. The disturbance is unlike any heretofore experienced, as it appears to act upon the wires in strong waves, causing a constant changing of the polarity current. Reports from Omaha state that the aurora is very brilliant at that point, the illumination being almost as bright as day. At St Paul it is reported the heavens have a blood-red color, the display being grand and fearful. The great storm extends as far west as Ogden and east to Boston. Cheyenne reports an illumination at that point "bright as day." The telegraph company devised a new trick to beat the aurora. When on account of great induction it was impossible to work with one wire, they discovered that by taking two wires from the ground between any two given points and joining their ends together instead of the same being grounded, a circuit was formed that could be successfully worked. In this way eight wires between Chicago and Buffalo were made to do the service of four. All long wires are broken up into short circuits, by which means New York and far western points are reached.

Railroad Matters.

ST. LOUIS, Nov. 18. Leland Stanford, President of the Central Pacific Railroad, accompanied by Mrs. Stanford and their son, arrived here to-day via the Southern Pacific. They are en route to New York and left for Louisville to-night, where they will take the Chesapeake & Ohio Railroad, which the Governor will make an examination of as he passes over it. Stanford in a brief interview just before leaving, said the line from San Francisco to New Orleans via the Texas Sunset route, is practically finished, there being little more to be done, and trains will soon be running from the Pacific coast to New Orleans. He also looks for an eastern outlet in the future for New Orleans by the Chesapeake & Ohio, and then they will have a continuous rail from San Francisco to New York under Pacific coast management, something which he says he has promised California people shall be done before a great while.

"The Silver King."

NEW YORK, Nov. 18. The Herald's London special says: The "Silver King," a new melodrama by Messrs. Jones and Herman, was produced at the Princess theatre last night. The three principal characters are Wilfred Denver, a self-accused murderer, afterwards known as "Silver King," who makes an immense fortune in Nevada silver mines; Nellie, his long-suffering and faithful wife, and Captain Skinner, known as "Spider," a gentleman burglar. The house roundly hissed the villain as a mark of disapprobation of his villainy, but an approval of the excellence of the performance. At the end, Mr. Barrett asked whether the piece was a success. A loud, unanimous shout of "Yes!" was the reply. The authors were then summoned before the curtain.

The Fastest Two Miles.

NEW YORK, Nov. 17. A day or two ago the brown mare Manetta, hooked double to a road wagon with the running horse Longman, trotted two miles in the extraordinary time of 4:27½—the first mile in 2:14½, and the second in 2:12¾. The mare did not wear breechings, and therefore outside of his taking the major part of the weight she received no assistance from Longman. The track was a trifle dull and slippery. The two miles are the fastest ever trotted.

All a Mistake.

NEW YORK, Nov. 18. A London dispatch says J. R. Keene's four-year-old colt Foxhall has been put in a private sale list. The amount asked for Foxhall is 7,000 guineas. Keene read over last night a copy of the dispatch handed to him by a reporter, and said: "No, that can't be so. It is a mistake."

All Quiet in New Mexico.

NEW YORK, Nov. 18. Governor Sheldon of New Mexico was interviewed here yesterday. He said: "Life and property are as safe in New Mexico as in the Eastern States. The Rustlers have been suppressed, and no hostile Indians have been heard of since the 10th of October, 1881."

Sullivan the Slagger.

WASHINGTON, Nov. 18. At a soft glove exhibition here last night John L. Sullivan, the Boston champion, who had challenged any man in Washington to stand up before him for four rounds, knocked Jordan Rensselaer down eleven times in one minute. The last knock-down

Rensselaer attempted to rise to his feet and face his opponent, when the police interfered and put a stop to the contest. Rensselaer was a volunteer contestant and was severely punished, blood spouting from his nose and face when the contest was stopped. The exhibition, which had been extensively advertised, drew a large audience.

Gov. Stanford in New York.

NEW YORK, Nov. 18. Ex Governor Stanford of California has leased Wm. H. Vanderbilt's old residence on Fifth avenue near 43d street, for the Winter. The rent is \$1,000 monthly. An evening paper says Stanford will signalize his advent by a series of brilliant receptions and entertainments during the Winter.

The Official Vote.

NEW YORK, Nov. 18. The official vote of the State is about completed. Cleveland's majority is 194,000. He received 536,200 votes, Folger 342,300. Garfield received two years ago 555,544.

The Joyce Murder Trial.

DUBLIN, Nov. 18. After Casey had been sentenced, Miles Joyce was arraigned for the murder of the old woman, mother of John Joyce. Malley of counsel for defense applied for a postponement of the trial of Joyce, because the indignation aroused and the publication of evidence in the preceding cases were calculated to prejudice the jury and prevent a fair trial.

A Dynamite Agent.

DUBLIN, Nov. 18. An Englishman named Edward Whittington was arrested to-day on his arrival at Northwell Quay, having twenty packages of dynamite caps in his possession. He stated that he was sent from Liverpool by a man unknown to him with the parcel, and did not know what was in the parcel.

A Teacher and Eight Pupils Burned.

PARIS, Nov. 17. A fire to-day destroyed the Council buildings, school and post office at Crozon, near Guimpar. The teacher and eight children perished in the flames.

Stubborn Old Bismarck.

BERLIN, Nov. 18. The government continues to decline all attempts of other powers to open or exchange notes on the question of Egypt and until Anglo-French negotiations are concluded Bismarck is determined not to speak.

DIED.

ROSS—at Glendale, Nov. 18, 1882 Mrs. D. A. Ross, wife of O. C. Ross, a native of California, aged 48 years. Funeral Monday at 1 o'clock, from family residence at Glendale.

BRIEF MENTION.

—Immigration is pouring into New Mexico.

—Wheat in Liverpool is steady and rather higher.

—There is considerable mortality among the English troops stationed in Egypt.

—The Turkish ambassador at London has been instructed to inform Lord Granville that unless further assurance of English policy in Egypt is given the Sultan will send a commissioner.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Rheumatic Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from indigestion and weakness, the result of disease, over-indulgence, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses nourishment the Extract will prove an excellent substitute for food. It neither palliates upon the appetite nor offends the taste.

DELICATE FEMALES, who suffer from the weakness of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and restores the system to its normal condition.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are afflicted with Consumption—will find this preparation exactly suited to their needs. It is a specific for the Consumption, as well as for all other diseases of the lungs, and as a FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the system, to give fullness and roundness to the female form, and to restore the system to its normal condition.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved likeness of Baron von Liebig, and a certificate of his signature, as well as that of A. VOGLER & CO., BREMEN, Germany, Sole Agents for America.

Overworked men and women, persons of sedentary habits, and others whose systems need recuperation, must be toned up, and muscles strengthened, should use Brown's Iron Bitters.

Reno Evening Gazette

SATURDAY, NOVEMBER 13, 1909

JOTTINGS.

This is a good time to clean up back yards.

The N. & O. does a good freight business.

This is lovely weather. How long will it last?

The Truckee was full of floating ice this morning.

Jerry Schooling is constantly receiving new goods.

S. Connor has a pair of horses for sale cheap. See 50 cent column.

Another lot of fresh cigars and a new brand of tobacco at E. Myers'.

Jas. Sullivan and Pat Kelly sold their hay yesterday for \$7.50 per ton.

Woods brothers are feeding 200 head of beef cattle at their ranch near the English mill.

The Plaza cistern has not been fixed. It would be Beemer's luck to drive his horse into it.

There is a large pile of hydraulic pipe at the depot awaiting shipment to Plumas county.

Hastings & Fredrick's string band will give a soiree at the old Reform Club Hall to-night.

The northern lights gave the White House clothing store a very bright appearance last night.

There are lots of hunters now. In fact, they seem to outnumber the deer and ducks they hunt.

It is now the fashion to clip horses. The process makes a rusty colored horse look respectable.

Peavineers are hustling to get their assessment work done before bad weather comes in earnest.

Go to Chase & Thyes and get a bottle of apple cider, the best thing in the world for pies.

The small boy enjoys himself on skates now. Several ponds in this vicinity afford good skating.

New goods direct from New York at Masby's. The thermometer stood 7, 9, 11, 1, 3—20, 31, 38, 42, 44.

Miller sold a band of little more than a thousand sheep yesterday to Don Campbell for \$2.25 per head.

S. Connor has half a million shade and fruit trees for sale; also a large lot of plants. See 50 cent column.

When you have a lot of broken bottles throw them into the street. They are pleasant things to encounter in the dark.

A Francis metallic life boat on a flat car to-day was an object of interest to many who had never before seen such a craft.

The man who was skinned of his money the other night has gone to work packing wood in Peavine, to make another raise for his friends.

What is the difference between a rich man and a dog's tail? The rich man keeps a carriage and the dog's tail keeps a waggin'. Ha! ha! ha!

Sierra street has been blockaded with freight trains most of the day, to the great disgust of many who have been compelled to wait for a crossing.

Did you never see a butcher slap a steak on his scales and quickly jerk it off and wrap it up? His customers do not pay for weight but for momentum.

A. Lindley has one of the best stocks of goods ever open in this market. His store is a model of neatness, and one of the busiest places in Western Nevada.

Sixteen car loads of prime fat beaves went west to-day. They are going through Reno in an almost continuous stream, night and day, and yet beef is said to be scarce.

A. Fraser is busy at his foundry repairing the old machinery that went through the Verdi Planing Mill fire for Lonkey & Smith. He is making it as good as new.

Coleman & Pechner will be ready for a rush of custom to-morrow. They have plenty of help, and there will be no waiting. Take a bath and get fixed up, and smell sweet.

A freight train went through Reno yesterday for Chicago loaded with hops, wine, canned salmon, beans, borax, dried fruit, and redwood lumber. California is a great exporter.

The comet is brightening up again, and local astronomers guess that it is coming nearer. It is several miles away yet. The strange visitor is at its brightest about 3 o'clock in the morning.

There is a large boiler and air compressor at the depot for the Green Mountain mine, Plumas county. It will be an arduous job to get them to their destination. They came from the Comstock.

Railroad travel is very light at present. The east bound train this morning was nearly empty. But the freight business is enormous. There is hardly sufficient room on the track for the traffic that passes over it.

Wm. Scott started for Bodie yesterday with 10,000 pounds of flour which he purchased of Jerry Schooling. There is good hauling now, and Scott will make high freight when he sells his cargo to the people of the windy plateau.

A REAL PIONEER.

Old John Torreyson, who has been on this Coast Forty Years.

There was an old man on this morning's emigrant train who was at once a curiosity and a living reminiscence of the long-ago pioneer days, of which comparatively few can speak from experience. When he stepped from the car and asked where he could buy some bread and get a bottle of whisky, he looked like a well-conditioned man of fifty or so, but his subsequent remarks proved that he was an octogenarian. The train remained here some time, and the reporter, accidentally running across the old man again, interviewed him. His name was John Torreyson, and he was born in St. Louis, Missouri, when it was hardly more than a trading post. What made the reporter inquisitive was that he said he was a member of a survey party that worked in the vicinity of Mono Lake in 1846. Questioning him cautiously and repeatedly apologizing for inquisitiveness, the reporter found that one of his companions was Col. B. B. Jackson of Bodie, the Democratic war horse of Mono county, who was a member of the party that made the first Government surveys of Southern Nevada, and who is now a hearty old man of seventy, and well-known by all in Mono county. Mr. Torreyson said he was a member of Fremont's first expedition to the Rocky Mountains, leaving St. Louis in May, 1842. He remained with him until the party set out on its return, when he took up quarters in the Wind River mountains, and remained there until Fremont returned on his third tour of exploration in 1845, when he joined him and went to California and was with him when he was attacked by Mexicans near Monterey. When Fremont was appointed Governor of California by Commodore Stockton, Torreyson struck out for the mountains again and joined a surveying party on the east side of the Sierra Nevada. He afterward returned to Mariposa, which he had become smitten with during his travels with Fremont, where he has remained ever since. He is now on his way home, after an absence of forty years. The old man has all the *chic* of youth, and talks about what he will do in the future with all the assurance of a young man.

A Chance to Make Money, Perhaps.

Parties from the East are conferring with the citizens of Oakland on the subject of building rolling mills in that enterprising city. If the project is carried out it may indirectly be of some benefit to Reno. The only obstacle to be overcome is the matter of cheap fuel. It is well known that out in the Pyramid country, not more than 20 miles from Reno, there is an inexhaustible quantity of lignite, which can no doubt be utilized for producing heat for working iron. It is certainly the largest deposit on the coast, and will make a quicker heat than any other fuel that can be obtained in large quantities. If the Oakland rolling mills are erected, it will be a good thing to look after.

Worth Seeing and Hearing.

Prof. Baker will give an entertainment at Reform Club Hall on next Monday evening which is deserving of attention. He is an eloquent speaker and one of the best tenor singers of the age. Every one interested in Ireland's struggle to free herself from bondage should go and hear the professor. He causes to pass before the audience views of the celebrated Irish Land Leaguers—Parnell, Dillon, Davitt, T. P. O'Connor, Healy, T. D. Sullivan, Archbishop Croke, Bishop Nulty, and a host of other celebrities.

Freed from Pain.

Mrs. D. A. Ross, the late wife of O. C. Ross, died this morning at 2 o'clock at her home at Glendale of consumption. Mrs. Ross had been sick for nearly two years, and has borne her illness with remarkable fortitude and courage. She leaves four little children motherless and a kind loving husband, who has the sympathy of every one in the community. The funeral will take place Monday from the family residence at Glendale at 1 o'clock. Friends and acquaintances are invited to attend.

Church Notices.

There will be services at the Congregational Church both morning and evening at the usual hours. Sunday-school at 12:15.

Services in the Baptist Church at 11 o'clock A. M. and 7 P. M. by the pastor, Rev. E. B. Hatch. Morning subject: "Taking away sin." Evening: "Rending the veil." Seats free and strangers made welcome.

Delayed Train.

Last night's west bound express was delayed five hours by a snow storm on the Union Pacific. It arrived here about 1:30 this morning. There were continuous storms for several hundred miles, or else one persistent storm pursued the train.

Pay Your Taxes.

Taxpayers should keep the fact in mind that taxes are due, and if not paid before the close of official business on the 20th inst., next Monday, they will become delinquent, and ten per cent will be added to the original amount.

PERSONALS.

C. F. Moeller is down from Steamboat to-day.

Nate Graham of Winnemucca is at the Palace.

J. A. Overstreet, Texas, is registered at the Palace.

Hank Knight is in town again from a Southern tour.

Mrs. J. R. Bidleman, Clark's Station, is in town to-day.

John D. Kelly, a Honey Lake granger, came in yesterday to feel of the market.

H. M. Yerington of the V. & T. returned from San Francisco this morning.

W. A. Morrison is in town on business connected with the Northern stage lines.

R. D. Young of Kansas City and L. N. Hopkins of San Francisco are at the Depot Hotel.

W. P. Hall, County Clerk of Lassen, came down last night and left for the Bay on the late train.

E. H. Calkins of the Burlington *Hawkeye*, was a passenger on the West-bound train last night.

J. E. Souchereau, book keeper for the Verdi Planing Mill Company, Verdi, was in town yesterday.

Mart. Follett, conductor on the V. & T. noon local, is on the sick list, and Crisler is running his train.

Sir John Lister Kay, an English baronet, accompanied by his wife, was on the express last night, bound for San Francisco.

Col. S. W. Blasdel and family of Bodie are on the way to Oakland to spend the Winter. The Colonel is a son of the ex-Governor.

County Clerk Osburn and District Attorney Rankin went out on the N. & O. to-day to corral a few deer. It is expected that a haunch of fat venison will be placed on file in this office when they return.

Wm. R. Carrigan came down from Virginia last night, and "whooped her up" with old acquaintances for a few hours. This morning he left for Chicago. He is an excellent printer and a pleasant gentleman.

W. S. Bender, head clerk at the office of the Ophir Mining Company in Virginia, was yesterday morning taken seriously ill. He was in very poor health for a long time and contemplated leaving for the Sandwich Islands in a day or two.

BEAUTIFUL AURORA.

A Magnificent Spectacle in the Heavens this Morning.

The northern lights began to flash last night soon after 8 o'clock, but were not brilliant until toward morning, when they loomed up grandly. Alternate streamers of crimson and white flashed from the horizon to the zenith like the light from a stereoscopic lantern, fading away or blending into lighter or darker shades of crimson, and sometimes approaching a blood red. Sergeant Barwick, of the Sacramento Signal Service station, says it is now an authenticated fact that these auroral displays are an excess of electricity in the cold, cold north, that passes quietly from the earth to the sky; or, in other words, the positive electricity of the atmosphere shakes hands with the negative electricity of the earth. These auroras are seen only over the parts of the earth corresponding to the frigid zones of each hemisphere, thereby causing the different electricities to exchange silent greetings, while in the torrid and temperate zones they embrace each other with forked fingers of purple light, accompanied by thundering reports in their quick connection. The appearance of auroras are supposed to be forerunners of clear cold weather. The comet is still to be seen, and with the northern light, makes a display which will well repay the early riser who leaves a warm bed to view the gorgeous spectacle.

Plumas Items.

[Greenville Bulletin, Nov. 15.]

Last season R. S. Flournoy tried the experiment of raising potatoes without irrigation. A few days ago eight potatoes were picked up from a pile and were found to weigh just twenty pounds. These are not at all remarkable for size, of course, but are deserving of notice for fine quality and abundant yield. There is not a hollow one in the entire crop, and they cook through like a loaf.

Thursday and Friday of last week twelve teams loaded with freight got in from Chico; these teams were ten days making the trip, averaging eight miles a day. On the summit there was about four feet of snow, and it was with great difficulty that the teams were got through at all. There yet remains at Chico 200,000 pounds of freight for this place. None has lately been got in from Oroville, and but little from Reno.

Last week three and a half cents per pound was offered for freight from Chico. During the Summer it could be got for a cent and a quarter. The additional cost will be quite a serious matter to the consumers, while the local merchants will gain nothing by it.

It is a noteworthy fact that every mine in this district, managed or owned by private parties is doing well, while every mine managed by corporations is in difficulties.

OREGON CITY WOOLEN MILLS BLANKETS

The Results of the Fight.

Upon probing the wound of Denis Sullivan, who was shot night before last by William Miller, says the *Enterprise*, it was found that the bullet did not pass upward into the mouth, as was at first supposed. It entered just under the chin, passed downward, struck the collar bone, and, glancing round it, finally buried itself in the muscles of the back. It is quite a severe and may prove to be a dangerous wound.

The ball which struck Miller entered his right breast some two inches above the nipple, and glancing round the bones in the shoulder lodged in the muscles of the right arm, whence it was extracted. Both wounds show the queer freaks of conical or pointed bullets on coming in contact with bones and tendons. Miller's wound is not a very dangerous one, but it is of an exceedingly painful character. Besides the bullet wound it is said it has been found that the shoulder is dislocated. The bullet which struck Sullivan passed under and narrowly missed the jugular vein and carotid artery. Had either of these large bloodvessels been cut there would have been very little work left to be done by a doctor.

Wealth on Wheels.

An express train, as ordinarily made up, represents considerable money, to say nothing about what it carries. An engine costs about \$12,000; baggage car \$2,000; postal and express car \$3,000; smoking car \$5,000; say five handsome passenger coaches \$18,000 each. This is about the way the overland that comes through Reno is made up, representing about \$112,000. But a dowdy-looking old freight train may have a load worth several hundred thousand. A tea and silk train passed Reno on Thursday night that doubtless had a cargo worth half a million.

On the Wing.

Mrs. Richie, a lady en route from Bodie to San Francisco, came in on the southern train last evening and feeling a little tired concluded to remain over one day. She took rooms at the Depot Hotel and during the night was taken sick. Dr. Bergman was sent for, and in a few hours she was delivered of a bouncing baby girl. Both mother and babe are doing nicely.

A New Fire Kindler.

Some genius has invented a little article called a "fire-kindler." Unless it is made in the shape of a coal-oil can, the newly-imported girl will not touch it. If it contains something that will explode and knock somebody end over end over two or three chairs, and burn off her eye-brows, without doing any other damage, there may be a large demand for the "fire-kindler."

Help Pay for the Organ.

On Monday and Tuesday evenings, November 27th and 28th, the ladies of the Baptist Church will give a festival in connection with a musical and literary entertainment for the purpose of raising means to provide for the debt on their organ. It is to be hoped they will be liberally patronized.
